

Preparation Sheet Outdoor Treatment **EXTERIOR SPRAYING**

CLEARING THE PERIMETER

- Move all objects (patio furniture, toys, bins, decorations, tools, etc.) at least 3 feet (1 meter) away from the exterior walls of the house.
- Potted plants or edible herbs must be relocated to an untreated area.

INTERIOR PREPARATION

- Keep all doors and windows tightly closed during the treatment.
- Turn off any ventilation systems or air exchangers to prevent product infiltration indoors.

PRE-TREATMENT MAINTENANCE (OPTIONAL BUT RECOMMENDED)

If possible, please complete the following before our visit:

- Wash the house (exterior walls, soffits, window frames, etc.)
- Remove visible spider webs
- Trim or clear vegetation that is in direct contact with the house

PEOPLE AND PET SAFETY

- No person or animal should be outdoors during the treatment.
- Keep pets indoors or off-site for at least 1 hour after spraying, or as directed by the technician.

Weather Conditions and Rescheduling

The treatment cannot take place in the event of rain, strong winds, or frost.
If needed, a rescheduling will be arranged at no additional cost.
